### **REQUEST FOR PROPOSALS: AQUATIC PLANT SURVEY AND LAKE DEPTH MAPPING**

Pigeon Lake Protection and Rehabilitation District invites Lake Management Teams to submit proposals for carrying out a whole lake aquatic plant survey and lake depth mapping. The proposal shall include mapping, data management and generation of a final report.

The aquatic plant survey must be completed according to the “Aquatic Plant Management In Wisconsin guidance for aquatic plant monitoring and aquatic plant management plan development”. While the survey will be a comprehensive survey of aquatic plants, it shall specifically detail locations and densities of Eurasian Water Milfoil (EWM).

The survey will be carried out in summer, 2026 and the information will be used to direct next steps in implementation of our Lake Management Plan – 2024, specifically Management Goal 1: Assure Navigational Access on Pigeon Lake, actions 2 and 3. The complete Lake Management Plan is available on the Pigeon Lake Website [Lake Plans | Pigeon Lake District](https://www.pigeonlake.org/managementplan/lake-plans) (<https://www.pigeonlake.org/managementplan/lake-plans>).

Written proposals should be submitted by email to Trish Dawson, District Secretary and Special Projects Manager, by March 31, 2026: [pigeonlake54929@gmail.com](mailto:pigeonlake54929@gmail.com). Proposals should include itemized budget of services to be provided, not in excess of \$6,000. Inquiries welcome to Trish Dawson, or to Board President, Jon Pahl: [jonpahlwi@gmail.com](mailto:jonpahlwi@gmail.com).

The method for this procurement is competitive proposal and will be governed and construed according to the laws of the State of Wisconsin.

Upon award, proposals will be considered public record and details will be posted online.
