

2024 Pigeon Lake Weed Cutting

- You shall submit an annual report of aquatic plant material removed by weight (unit) and volume (unit) and species, a detailed map of treatment areas, total acres harvested, a report detailing the non-target impacts and the species and number of fish encountered within 30 days of the last treatment to both:

a. DNR APM Program.

b. Christopher Kolasinski at Christopher.kolasinski@wisconsin.gov

* Weight calculated on load wt of 3980lbs

Date	Cutter Operator	Loads	Load Wt* (lbs)	Target species (%)			Harvested Acres	Non Target Impact			Time (hrs)	Comments
				EWM	CLP	Other		Plant (%)	Fish number	Species		
Totals		39.75	158205				284				97.8	
5/29/2024	DK	2	7960	80	20		20		2	Bluegill	6.5	
5/30/2024	DK	3	11940	80	20		21				7.0	
5/31/2024	DK	2	7960	90	10		14				4.5	
6/3/2024	DK										1.5	Change Oil
6/4/2024	DK	3	11940	100	0		25		5	Carp	8.0	
6/6/2024	DK	2	7960	90	10		10				3.5	
6/7/2024	DK	2	7960	90	10		11				3.5	
6/11/2024	DK	3	11940	80	20		23.5				7.5	
6/12/2024	DK	2	7960	90	10		14				4.5	
6/12/2024	DK										2	Changing some cutter blades
6/13/2024	DK	1	3980	100			5				2	
6/14/2024	DK	2	7960	90	10		18.5				6	Brakes on truck poor
6/20/2024	DK	1	3980	100			3				1	
6/21/2024	DK	2	7960	90	10		5				2
